

WAREHOUSE SERVICES/BENEFITS

With the high cost of international freight, GHY customers are taking advantage of reduced domestic shipping costs by utilizing the services of our Pembina, ND warehouse. In essence, these services are providing our customers with a U.S. location/shipping address.

IMPORTS INTO CANADA

GHY import customers are significantly reducing annual freight costs by instructing U.S. vendors to ship orders domestically to our Pembina warehouse rather than internationally to Winnipeg. Once customer orders are received into our warehouse, we collect the northbound freight and line haul the consolidated freight to Winnipeg. Service includes daily line haul with delivery to your door. This service is ideal for package up to pallet shipments. Providing the proper documents are attached to the shipment, this service adds only a day to delivery.

In addition to reduced domestic freight costs, many U.S. vendors offer free domestic shipping. In some cases, this is based on the value of the order.

EXPORTS INTO THE U.S.

Conversely, GHY export customers are taking advantage of U.S. domestic freight rates by shipping out of our warehouse to their U.S. customers. Our customers' pre label packages with final destination information and arrange pick up through our pick up service and delivery to our Pembina warehouse. Once in Pembina, delivery of packages is coordinated by our warehouse staff either using our UPS domestic shipping account or a carrier of their choice.

OTHER POINTS OF INTEREST

Customers using ground delivery services receive a daily spreadsheet/list with tracking numbers for their exports.

In order to reduce line haul costs, the majority of customers will select one or two days of the week to either line haul their imports into Canada or export their customer orders. For example, a customer may request that GHY consolidate their import freight and ship every Tuesday and Thursday. Tuesday's shipment would include all shipments received by GHY for one Thursday, Friday and the following Monday. Thursday's shipment would include everything received by GHY on Tuesday and Wednesday. In some cases customers will do daily line haul based on high volume imports.
