- Please ensure all documents you fax are clear and complete. Incomplete, illegible, or missing documentation or information may delay release by CBP or other government agencies
- Please report any changes to the information on this sheet to your broker immediately. This will help with rapid release at primary.
- Driver is to cross at designated port only. Failure to cross at designated port will result in crossing delays and costs.

Prior to arrival at the border, it is the carrier's responsibility to verify that your customer's cargo data has been accepted by CBP, and to communicate any changes in information (port of arrival, quantities). Confirmation of fax receipt or e-mail receipt by the customs broker does not constitute approval by CBP. All non-compliance for prior notice results will be the responsibility of the carrier.
